11 Kentucky Counties Get \$50,000 Grant

Commerce Commissioner Katherine Peden explained the objectives of the 11 mountain-locked Eastern Kentucky counties project which has just recently received a \$50,000 federal grant for the survey of 100 to 120 of the more promising industrial sites here last Thursday night.

Miss Peden, told officials of the towns and counties involved of the importance of this project and introduced the officials of R. W. Booker & Associates, a St. Louis engineering firm that will conduct the search.

Lee Carter, the project manager, said the 100 to 120 locations will be reduced to about 30 to 40 better ones. Those chosen as best, he said, will get "the full treatment of investigation" so that comprehensive data can be made available to prospective manufacturers.

Damon Harrison, director of research in the Department of Commerce announced that the Spindletop Research at Lexington is doing a survey in all 120

counties so that spots adaptable to individual industries can be recommended to manufacturers looking for factory sites.

Agents of firms interested in industrial sites in Eastern Kentucky will visit the areas concerned for direct observation and discussions with the town officials and citizens.

Hazard Mayor Willie Dawahare, host to the meeting, expressed a desire that the consultants concentrate on sites that might attract "really desirable industries."

"We have had offers from 15 manufacturers," representatives here in Hazard, he said. "They were quite willing to build factories and hire our unemployed people."

"Then when we checked them out with Dunn & Bradstreet we found that not a one of them was desirable. All they wanted was some easy financing money from the Federal Government to pay, I suppose, the debts of their factories in other places."

Cornerstone Reveals 21 Coins, Documents, The Herald Of 1912

The cornerstone of the old Perry County Courthouse was finally revealed last Friday at approximately 4:35 p. m., when County Judge Babe C. Noplis took a hammer and struck into the historic articles and 21 aged coins after the first attempt to solve the mystery had failed earlier that morning.

The first attempt to break in to the cornerstone began at noon Friday with a large crowd of approximately 75 bystanders and news media anxiously awaiting the opening.

After an hour of vigorous labor by workmen of the W. D. Johnson Construction Company, Judge Noplis called the search off until further evidence of the cornerstone could be located.

After rechecking the old August 15, 1912 issue of the HAZARD HERALD, the paper insinuated that the articles and coins were placed in the concrete foundation and not in the brick.

Judge Noplis came back again at 4 p.m. along with W. D. Johnson construction worker, Robert Hayden, and began working again, with a chisel and hammer on the cornerstone which would be the one on the right side facing the courthouse. After laboring for more than thirty minutes and

getting no results Judge Noplis decided to return to the opposite cornerstone where they searched for the mystery first.

With only four or five people looking on Mr. Hayden plunged a sledge hammer onto the concrete foundation and bits of paper flew from the stone. At that time a bystander took the big hammer and began striking the old courthouse bell as people started to gather.

The County Judge then took a smaller hammer and began to remove the particles and coins.

A total of 36 cents, an aged newspaper, a blueprint of the old courthouse, and some mortar with imprints of coins were taken from the cavity of the courthouse Friday.

Judge Noplis appointed Rev. T. H. Harding, pastor of the Hazard First Baptist Church; Mr. Jack Burnett, City Commissioner; and Mr. Garland Wells, Hazard Attorney, to a committee for safe the historical markings.

According to Judge Noplis, the committee has planned to prepare a coin case and place the exhibits along with the hammer and chisel which opened the stone, on display in the new courthouse when completed.

"The committee also is planning to contact the University of Kentucky to see if it could be possible to open the paper articles and treat them with chemicals so they may also be put on display," quoted Noplis.

A breakdown of the findings are as listed: Edition of 1912 Hazard Herald, blueprint of the courthouse, pieces of mortar with imprints of coins, and 21 coins and the sheriff's settlement.

The identification of the coins are: 1895 Barber quarter, 1902 Barber dime, 1908 V nickel, three 1911 V nickels, 1901 V nickel, 1903 V nickel, 1892 V nickel, one Shell nickel with date not visible, 1907 Indian Head penny, 1893 Indian Head penny, 1908 Indian Head penny, two 1899 Indian Head pennies, 1905 Indian Head penny, 1896 Indian Head penny, 1880 Indian Head penny, two 1910 Lincoln pennies, and a 1911 Lincoln penny.

Here is a direct quote from the 1912 Herald about the laying of the stone:

"Mr. David F. Hunnell, foreman of the bricklayers took a copy of THE HAZARD HERALD, of date August 8, 1912, Vol. 2, No. 7, folded it into a compact package and together with a copy of the building laid them into the cavity prepared for their reception."

"In this connection we wish to state that the issue of THE HERALD will prove a most interesting one to future generations, should it ever be brought to light by some unforeseen set of circumstances."

It contains the Sheriff's settlement with the county for the year 1911 and the county's financial statement for the same period. Mr. Hunnell, taking a trowel, mixed the mortar and placing it over the cavity, inserted the corner brick."

According to the 1912 Herald there had been small change of quarters, dimes, nickels, and pennies thrown into the cavity until the amount of one dollar had been deposited.

Only 85 cents could be accounted for when the cornerstone was opened Friday and Noplis stated that someone had probably thrown in a penny and thought it was a larger coin or that they (Mr. Hunnell's group) had made an error in counting the money. Everything else that was stated in the 1912 edition of The Hazard Herald was re-opened Friday.

According to Walker, he parked his car in front of Willis' House of Fashion and left the keys in the car. He then walked up the street and when he returned approximately twenty minutes later the car was gone.

First Four To See Cornerstone

The first four men at the scene of the opening of the mystery cornerstone of the old Perry County Courthouse last Friday, are shown here as County Judge Babe C. Noplis drives a chisel into the concrete foundation where the coins and documents were hidden. The men from left to right are: Mr. Paul Wagner, Superintendent of the W. D. Johnson Construction Company who is building the new courthouse; Perry County Judge Babe C. Noplis; Mr. Robert Hayden, employee of the W. D. Johnson Construction Company; and a bystander, Mr. Ralph Hall of Masons Creek.

Folks, too many of you that we have seen recently that have come back home for a visit, I for one must say you are a sight for sore eyes, it has been good to see and talk with so many of you. Many of you have gone from what I have heard as long as ten years, yet it doesn't seem that long. As we grow older we forget names but not the faces. This is vacation time with so many of you that have moved to other areas to seek a livelihood, I know that you are glad to get back home to see mom and dad and all the rest of your friends and family, it is great to see you and I can tell by the expressions on your face that you are glad to make a visit home once again.

You are in the presence of the type of people that you have always known, you are relaxed. In one sense of the word we who are left here are the ones who are a little on the tense side when we can't remember your names. I can readily tell where your hearts are by saying that you take The Hazard Herald and you read after this Hill-Billy Column of mine. Folks, I know of no better way of keeping in touch with your loved ones and the area you cherish to come back to than through the publication of The Herald.

HIGH OR LOW

Few days ago I was talking with a real old timer from up the river way, she is in her early eighties. We were discussing her latest ventures in fishing, gardening and etc. Two ladies came by wearing one of the new style dresses. The old lady turned around and expressed herself like this: "Pon My Word and Honor what in the world is women going to get on next." I explained to her that it was a new dress they called THE SHIFT. She replied it must be like the Model T Ford, shifting from high to low. I said, yes, something on that order. She said it looks more like a gang of cats fighting under their dress tails. She giggled herself a little and said the darn things look like they might be cool at least, I think I will try myself one. To me this is not growing old when you are able to observe the modern trends of time like she did at Eighty and past. Let's look and hope that many more of us will have the same outlook on life at that age. Let's all be ready to shift when the right time comes that I mean to broadminded thinking.

FISHING DERBY

On Buckhorn Lake is picking up in tempo, many of you are going after the tagged fish that were released by your DEPT OF FISH & WILDLIFE RESOURCES in the lake for this Rodeo that is being sponsored by THE JUNIOR CHAMBER OF COMMERCE. Folks, don't forget to register before you try your luck, you can never tell who the winner might be. Remember it is not the biggest fish that can win prizes, the number on the tag will govern this. Then, if the correct number of fish are not caught you still have a chance to win, as there will be a drawing to determine the winners. Let's all REGISTER FOR THE FIRST ANNUAL DERBY ON BUCKHORN LAKE. The boys are trying to promote tourism and to bring people into our area. LET'S ALL HELP.

AS RELATED

By a reader of this Column JIM BAILEY from down his way in the Walkertown area, he states that an old farmer from near his home, sent his son to College, one of his neighbors

asked him how his son was doing in College, the old man replied, "I guess he is doing alright. He has learned to sleep until breakfast, part his hair in the middle, and to eat with a fork."

Many of a joke has been told about our mountain boys going away to school, to be what type of joke is told on them. If we would check their records we will find that many many of them have made some of the most excellent records. I would hate to try and run them all down, when our kids enter College they mean business. They usually prove themselves without too much fanfare. It is a shame that we don't have too much to offer them here at home. If we could get the Junior College near us, I would say it would be hard to say what our boys and girls could accomplish, that is living near enough that they can afford this type of education. You, the people, could render a great service in helping to get a Junior College in our midst by merely writing a letter now and then to the proper authorities. Find out what you can do to help. What would actually happen to our region if each and every one should quit fighting for our own interest. Your Hazard Herald, Radio Station and a few interested persons is what is keeping the Region alive for your own interest. Why not pitch in today and let's all render the support that is needed to make our area come alive again. Any one can give up, it takes a real united effort to succeed in any undertaking.

ALWAYS NICE

Hearing from school readers such as you, Mrs. George White, Miss Eva Smith and many others of you that I have had the chance to talk with lately. Also to you, Mr. Benton Deaton who taught me at Buckhorn School many years ago. Benton is now residing at Auburn, Ky., also in Florida. Benton, I have changed my mind about you during those days. You, Mr. and Mrs. O. J. West of Florida, you use to take us in the fields to grub. I find today that it has helped me along in the ways of making progress. I find that I am not ashamed of what I had to do, actually have been proud that I had some teacher such as you that poured it on us to get this job done. By granny, we raised the beans and other vegetables in that new ground.

NICE SEEING

You, Mr. and Mrs. O. J. West of Florida, sorry to see you take up permanent address down there. Sooner or later I believe that Kentucky will have as much to offer retired people as any state will. Good to see you Jack and Mrs. Branson come back to Kentucky and Hazard Area to settle with your recent retirement from The Kentucky Power Company. This you always did say you would do when it became effective. Glad you are back home, and you have a nice garden. Thanks to you Jonah Daniel in regard to this column. Glad to hear you say it is getting better all the time. Of course this all depends on the news, you folks bring in. You give it to me and we will write it.

LET'S LOOK FORWARD TO

The new roads, small industry, water control during flood times, we will have a lot to offer if all these things work out. Already we have a great amount of people that are visiting our area for the beauty that it offers. I personally think that it will grow.

VFW Braves Beat Coca-Cola 11-2 As Bruce Begley Wins

VFW's Braves broke open a tight pitching duel between Eric Olinger of the Yankees and Bruce Begley of the Braves in the third inning with five runs to take a commanding 5-1 lead and finished with a 11-2 victory over the Coca Cola Yankees.

The Yankees took a 1-0 lead in the first inning when Mike Lusk reached first on the third baseman's error and went on the third on the bad throw then came home when Oliver Haggans grounded out.

Meanwhile, Olinger had retired the first six Brave batters to face him when he took the mound in the third. Little Rookie Medaris led off with a walk and Hill followed with another walk. Watkins fanned but Lindon reached first on the second baseman's error. Three straight singles by Caudill, Begley, and Pugh produced five runs and the Braves led 5-1.

The Braves made it 7-1 in the fourth with two unearned runs on a walk to Watkins, a single by Lindon and two Yankee errors.

VFW added three more runs in the sixth and led 11-1 going into the bottom of the sixth. Mike Lusk scored their second and last run when he walked, stole second and came home on an error by the first baseman as the Yankees bowed to the Braves 11-2.

Lothair Loses Cobb; Pick Rose To Catch

The Lothair softball team announced today they will miss the services of their star catcher, Kenneth Cobb for four to six weeks due to a recent hospitalization for ulcers and kidney ailments.

Cobb, former Hazard All-State football and basketball star has been instrumental in leading Lothair to a successful season thus far with his daring base running and excellent defensive play.

Rose Takes Over

Pick Rose, versatile third baseman and manager who is currently batting over .300 will take over the catching chores for Cobb.

Gene Smith has presently an 82 pitching record including two no-hitters, three one-hitters, and four shutouts in addition to a .350 batting average. Carl Pigman (7-1) has fired two shut-

outs and rarely gives up an earned run.

Second baseman Marvin Meadows and brother Gene Meadows, both of Jackson, combine for an outstanding defensive combination on the infield at second and shortstop where Gene plays.

In addition, Marvin is slugging the ball at a steady pace.

Davis Combination

Another great brother combination includes outfielder Joe Davis and first baseman Clifford Davis. Both are at the top on defensive and hit the ball at a timely clip.

Rounding out the team are outfielders Jimmy Hall, Chuck Meade, and Logue C.C. Hall is considered one of the faster outfielders in the area frequently making outstanding catches of sure base hits.

Meade Batting .325

Chuck Meade, Hazard baseball pitcher, is one of the exceptional outfielders batting in excess of .325 with many of his hits coming in the clutch. Cole's hustle and desire makes him a strong and steady competitor.

Shockey Bowling's Indians Win; Walters and Patrick Shine

7-Up's Indians scored four runs in the first inning and coasted to a 7-1 baseball victory over the Gulf Dodgers as Wayne Patrick socked two doubles and Juan Walters pitched a two-hitter.

The Indians got a 4-0 lead in the bottom of the first on singles by Juan Walters and Mike Combs and a double by Wayne Patrick after the first two men up were on through errors.

The Dodgers got one run back in the top of the second when William Turner blasted his third homer of the season over the left field fence and cut the Indian lead to 4-1.

7-Up upped the lead to 5-1 in the second on two Dodger errors and made it 7-1 in the fourth on a walk, a hit by Greg Horn and three stolen bases. Juan Walters, the winning pitcher, fanned six and walked seven while giving up only two hits.

William Turner suffered defeat again as he was backed by poor fielding and little hitting. Turner struck out seven and walked only one. He gave up six hits and two earned runs.

In Kentucky... at a picnic, beer is a natural

When you're relaxing at your favorite outdoor beauty spot with friends or family, and your thirst's whetted by fresh air and exercise—that's the ideal time for a cool, refreshing glass of beer. In fact, you can name your recreation—swimming, hiking, or just watching TV—and chances are nothing in the world fits it quite as well as beer.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Kentucky... beer goes with fun, with relaxation

BUCKHORN

Snake Killed At Otter Creek; Mrs. Betty Amis Returns Home

By Bernice T. Hiser

Well, friends, here I am back home after a happy and busy year at Logan, Indiana, where I was librarian at North Dearborn High School. It was just like what one imagines getting to heaven will be like to get back to Buckhorn early in June to the old home, with the creek singing in front of the door, flowers blooming, birds singing, all that good garden sass, kind neighbors, and this wonderful climate of cool nights and warm days. Susan finished the 9th grade, was in the school band, a trumpet, and attended the Indianapolis 500 on her birthday, May 30th, where the band was on television.

Mr. and Mrs. E. G. Rutherford (Rocky and Sadie) went with Mrs. Douglas Gabbard and children to visit Jeanette Elizabeth at Warren, Ohio. Mary Louise who is in nurse training at Youngstown, Ohio, had been home for a month recuperating from minor surgery. Toni and Eddie, Jeanette Elizabeth's two little children, had been visiting the Gabbards for two weeks. While in Ohio Mr. Rutherford and Doug Ray carpentered on their host's house which he moved and remodeled.

Mr. and Mrs. Dave Jones of Bulan and son J. C. of Fairborn, Ohio, visited the Hises the other day, and afternoon took us all for rides on the Buckhorn Lake. We went up to the lodge which is quite a sight to come upon right out in the wilderness. J. C. and wife Wanda and his brother Charles and wife Wilma spent the night in J. C.'s boat on the lake.

People on Squabble Creek are pleased that Mrs. Betty Amis, Herald correspondent, is home from London where she had been ill, for some time. Bill Sandlin and Jerry Combs were showing off a big rattlesnake that they had killed while in the woods on Otter Creek July 6.

Shirley and Troy Fugate and children of Lexington visited her parents, the Hises, last Sunday. They were guests at Mr. Fugate's brother Phil's wedding to Delores Barnett at Jackson Saturday.

Mr. and Mrs. Charles Deaton and children were visitors at the Hises and at the homes of their parents, John Jones of Bulan and Willie Deaton of Chavies this weekend. They are former Perry County teachers, now in the Austin, Indiana, schools where Charles will be principal this fall and Pearl will continue teaching fifth grade.

Pearl is in graduate school at Eastern this summer where she has two classes under a former Buckhorner, Dr. Quentius Keem; while Charles is kept busy baby sitting Michael, Jacqueline, Vicki Lynn, and John. Our Squabble Creek walk bridge broke down in the winter and is being rebuilt by Rocky Rutherford and Mr. Hiser.

Mrs. Sadie Rutherford gave a shower for Mrs. Edward Lee Minter last week. Mrs. Minter, the commerce teacher at Buckhorn High, received a number of beautiful and useful "baby" gifts.

Mr. and Mrs. Bill Campbell of the Agency bought the John Riley house on Squabble and are fixing it up for rental property.

The Rutherfords and Hises went down to look at the new Buckhorn School Sunday evening. It is a very nice building with lovely colored rooms, quite a contrast to the old log building our children went in for so long. A new science building is being built beside it, and stakes are in the ground marking the location for a building for elementary classrooms which is to be started shortly.

Mr. and Mrs. Carl Howarth have just returned from a Florida vacation.

Mr. and Mrs. Larry Jo Minter and baby of Indianapolis are visiting his parents, Mr. and Mrs. John Wilson Minter, Houseparents at the Big Boys' dormitory at the Agency.

Mr. Elliott Turner, formerly a Buckhorn resident, was a visitor in Buckhorn last week.

The children who turned the tables on the world by going out of Buckhorn to join a work camp in Brooklyn, said one of their greatest problems was caused by not talking like Brooklynners.

For instance, says Rita Minter, when they said ice as one syllable, the Brooklynites could not understand what they wanted until someone finally said, "Oh, you mean 'oice', a two syllable."

The Work Project for Fathers of Dependent Children is now repairing the swinging bridge across the river at Cam's Branch.
